Chapter 1

Introduction to Inter-VLAN Routing

1.1 What is VLAN Segmentation?

1.2 The Need for Inter-VLAN Routing

1.3 Comparison of ROAS and Multilayer Switches

Chapter 2

Router-on-a-Stick (ROAS) Configuration

2.1 Understanding Router-on-a-Stick

2.2 Network Topology for ROAS

2.3 VLAN and Trunking Configuration on a Switch

2.4 Configuring Subinterfaces on a Router

2.5 Verifying and Troubleshooting ROAS

Chapter 3

Multilayer Switch (MLS) Configuration

- 3.1 Understanding Multilayer Switching
- 3.2 Role of Switched Virtual Interfaces (SVIs)
- 3.3 Configuring VLANs and Trunking on a Multilayer Switch
- 3.4 Enabling IP Routing on a Multilayer Switch
- 3.5 Configuring EtherChannel and Routing Protocols
- 3.6 Verifying and Troubleshooting a Multilayer Switch

Chapter 4

Comparing ROAS and Multilayer Switches

4.1 Performance and Scalability Comparison

4.2 When to Use ROAS vs. Multilayer Switches

4.3 Best Practices in Inter-VLAN Routing

Part I

Exercises and Hands-On Practice

Chapter 5

Practical Configuration Exercises for ROAS

- 5.1 Basic VLAN and Trunking Configuration
- 5.2 Configuring Router Subinterfaces for VLAN Routing
- 5.3 Testing and Troubleshooting Inter-VLAN Communication
- 5.4 Implementing Access Control Lists (ACLs) in ROAS
- 5.5 Configuring DHCP Services on the Router

Chapter 6

Practical Configuration Exercises for Multilayer Switches

- 6.1 Creating VLANs and Assigning Ports on an MLS
- 6.2 Configuring and Verifying Switched Virtual Interfaces (SVIs)
- 6.3 Enabling IP Routing on a Multilayer Switch
- 6.4 Implementing EtherChannel for Link Aggregation
- 6.5 Configuring and Verifying Routing Protocols (OSPF, EIGRP)

Part II

Answer Key and Explanations

Chapter 7

Answers to ROAS Exercises

7.1 VLAN & Trunking Configuration Answers

7.2 Router Subinterface Configuration Answers

7.3 Troubleshooting ROAS Answers

7.4 ACL and DHCP Configuration Answers

Chapter 8

Answers to Multilayer Switch Exercises

8.1 VLAN and SVI Configuration Answers

8.2 IP Routing and EtherChannel Answers

8.3 Routing Protocol Configuration Answers

Appendix A

Cisco IOS Command Reference

Appendix B

Troubleshooting Common VLAN and Inter-VLAN Issues

Appendix C

Additional Study Resources and Certification Guide
